1970 CATALOG OF BRAILLE MUSIC PUBLICATIONS--SUPPLEMENT #9

October, 1972

COMPUTER-PRODUCED BRAILLE MUSIC

For the past year, the Data-processing Department of the Printing House has been doing research, through a grant from the Library of Congress, into the possibilities of embossing Braille music selections by means of a computer-assisted process. To date, four selections have been so produced, and the plates are available for immediate printing of the following compositions upon receipt of orders:
